

OMG[®] OlyBond500[®]

SECURING INSULATION MADE FAST & EASY!

OlyBond500[®] is the premier insulation adhesive for low-slope roofing applications. Packaged in a box of four 1,500 ml cartridge sets, OlyBond500 is perfect for quickly and easily attaching insulation boards.

OlyBond500 is a fast-acting, two-component, low-rise polyurethane foam adhesive designed to adhere most insulation types to a wide selection of common roof decks and materials. OlyBond500 can be used in both new and re-roofing applications, including applications that require multiple insulation layers.

OlyBond500 is dispensed through a portable 1:1 applicator in semi-liquid beads that spread to several centimeters before rising 20 mm above the substrate. Place the insulation/cover board into the adhesive and walk into place. A chemical cure occurs within approximately 4 to 8 minutes depending on the temperature and weather conditions.

FEATURES & BENEFITS

- Odor- and noise-free installation will not disturb building occupants.
- Easily applied with portable SpotShot applicator tools.
- Ultra low VOC.
- HCFC Free.
- Available in temperature-optimized grades for year-round use:
Regular Grade – For use in temperatures above 4°C; and **Winter Grade** – For use in temperatures from -17° to +18°C.

APPROVALS

OlyBond500 is approved by most roof system manufacturers and is Factory Mutual approved.

COMPATIBLE ROOF DECKS, SUBSTRATES AND INSULATION

- Poured in place structural concrete.
- Steel.
- Gypsum.
- Cementitious wood fiber plank.
- Treated plywood (16 mm min. thickness).
- Most bitumen base layers.*
- Insulating concrete.
- Existing sprayed-in-place polyurethane foam.
- Various BUR smooth and with gravel.
- Expanded polystyrene (EPS).
- PIR.
- Hard cover boards.
- Perlite.
- High density wood fiber board.
- Certain extruded polystyrene.

*Any questions, please call OMG Roofing Products.

Over 278 million m² installed!

OMG[®] OlyBond500[®]

PACKAGING & COVERAGE

Packaged in 1500 ml cartridge sets, 4/case. Typical coverage rate is 40–55 m²/case depending on the substrate and insulation type.

- Regular
- Winter

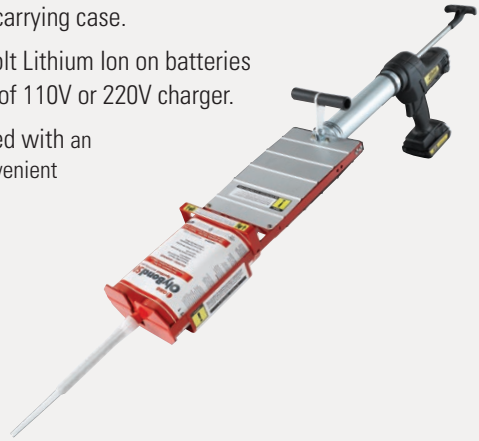

POWER GUN CORDLESS APPLICATOR

- Includes integrated battery charge indicator gauge, and can be charged in 30 minutes, 50% faster!
- Easy to operate.
- New stand-up power gun applicator comes fully assembled and with heavy duty carrying case.
- Includes two (2) 18 volt Lithium Ion on batteries (LIB) and your choice of 110V or 220V charger.
- Comes fully assembled with an extra battery and a convenient carrying case!

The Power Gun Cordless Applicator comes fully assembled with an extra battery and a convenient carrying case!
