OlyBond500® is a fast-acting, two-component, low-rise polyurethane foam adhesive designed to adhere most insulation types to a wide selection of common roof decks and materials.

OlyBond500 can be used in both new and re-roofing applications, including applications that require multiple insulation layers. OlyBond500 is dispensed in a semi-liquid bead that spreads to several inches before rising ¾ to 1-in. above the substrate. Place the insulation/cover board into the adhesive and walk into place. A chemical cure occurs within approximately 4 to 8 minutes depending on the temperature and weather conditions.

Available in several easy-to-use packing options including:

- 1500 ml SpotShot Cartridges
- 5 gallon Bag-in-Box (10 gallon sets)
- 15 gallon Drums (30 gallon sets)
- Canister sets

**FEATURES & BENEFITS**

- Non-penetrating attachment system.
- Odor free – excellent for sensitive areas, such as schools, office buildings and hospitals.
- Ultra low VOC meets all local and federal regulations.
- Reduces re-roof and construction noise.
- Rapid application with appropriate dispensing tools.
- Chemical cure results in fast set-up time.
- Eliminates thermal bridging.
- Extremely high wind-uplift ratings.

Available in temperature-optimized grades for year-round use:

**Regular Grade**

- SpotShot Cartridges: 40°F and above
- Canisters: 40°F and above
- Bag-in-Box: 40°F and above
- 15 Gallon Drums: 40°F and above

**Winter Grade**

- SpotShot cartridges: 0°F – 65°F
- Canisters: N/A
- Bag-in-Box: 25°F – 65°F
- 15 Gallon Drums: 25°F – 65°F
ROOF DECKS AND SUBSTRATES
• Structural concrete.
• Gypsum.
• Cementitious wood fiber plank.
• Lightweight insulating concrete.
• Steel (22 Ga. or thicker with approved cross section).
• Plywood (3/8-in. thick min.).
• Smooth surface BUR.
• Smooth and granular surface modified bitumen (properly prepared).
• Existing sprayed in place polyurethane foam.
• Base sheets.
• Most vapor barriers (including asphaltic and fleece-top.)

ROOF INSULATION AND COVER BOARD
• Expanded Polystyrene.
• Polyisocyanurate.
• High Density Wood Fiber.
• Perlite.
• Certain Extruded Polystyrene.
• Most cover boards.

APPROVALS
OlyBond500® is approved by most roof system manufacturers and is Factory Mutual, Miami Dade, Underwriters Laboratories and Florida Building Code approved.
