

EXTEND THE CANISTER SEASON WITH A POWERBLANKET

Powerblanket® has changed the conventional method of transferring heat to temperature sensitive materials, such as OlyBond500 Canister Adhesives. Revolutionary Powerblanket foam box heaters provide uniform heat to spray foam adhesives to eliminate those annoying hot and cold spots. Powerblankets are maintenance free and eliminate the hassles and headaches of trying to keep adhesives at critical temperatures during cold weather applications, when you need it most!

FEATURES & BENEFITS

- Insulated full-wrap design delivers uniform heat to temperature sensitive adhesives
- Maintains consistent temperatures to prevent waste without scorching or burning
- ETL certified to UL & CSA safety standards
- Runs on standard 120 Volt current and comes with a six-foot power cord

APPLICATION

Each Powerblanket has an internal pre-set temperature of 100° F (38° C). Heavy duty vinyl covered foam box heaters are 16-inches square, weigh approximately 8 lbs. and provide 2.37 cubic feet of heating area.

Each Powerblanket foam box heater will accommodate one box containing a canister of OlyBond500 Adhesive.

For proper storage and application temperature information, please refer to the [OlyBond500 canister cold weather guidelines](#).
