

**EXTEND THE CANISTER SEASON WITH BLANKET WRAPS**

Powerblanket® has changed the conventional method of transferring heat to temperature sensitive materials, such as OlyBond500 Canister Adhesives. Revolutionary Powerblanket Wraps provide uniform heat to spray foam adhesives to eliminate those annoying hot and cold spots. Powerblanket Wraps are maintenance free and eliminate the hassles and headaches of trying to keep adhesives at critical temperatures during cold weather applications, when you need it most!

**FEATURES & BENEFITS**

- Insulated full-wrap design delivers uniform heat to temperature sensitive adhesives
- Maintains consistent temperatures to prevent waste without scorching or burning
- ETL certified to UL & CSA safety standards
- Runs on standard 120 Volt current and comes with a six-foot power cord

**APPLICATION**

Each Powerblanket Wrap has an internal pre-set temperature of 90° F (32° C). Heavy duty vinyl wraps heaters are 45- x 20-inches, weigh approximately 4 lbs. each, and provide 6.25 square feet of heating area.

Powerblanket Wraps come in sets of two to accommodate both canisters of OlyBond500 Adhesive at the same time.

For proper storage and application temperature information, please refer to the [OlyBond500 canister cold weather guidelines](#).
